

COMPLIANCE and BEYOND

A Guidebook on Corporate Social
Responsibility Standards

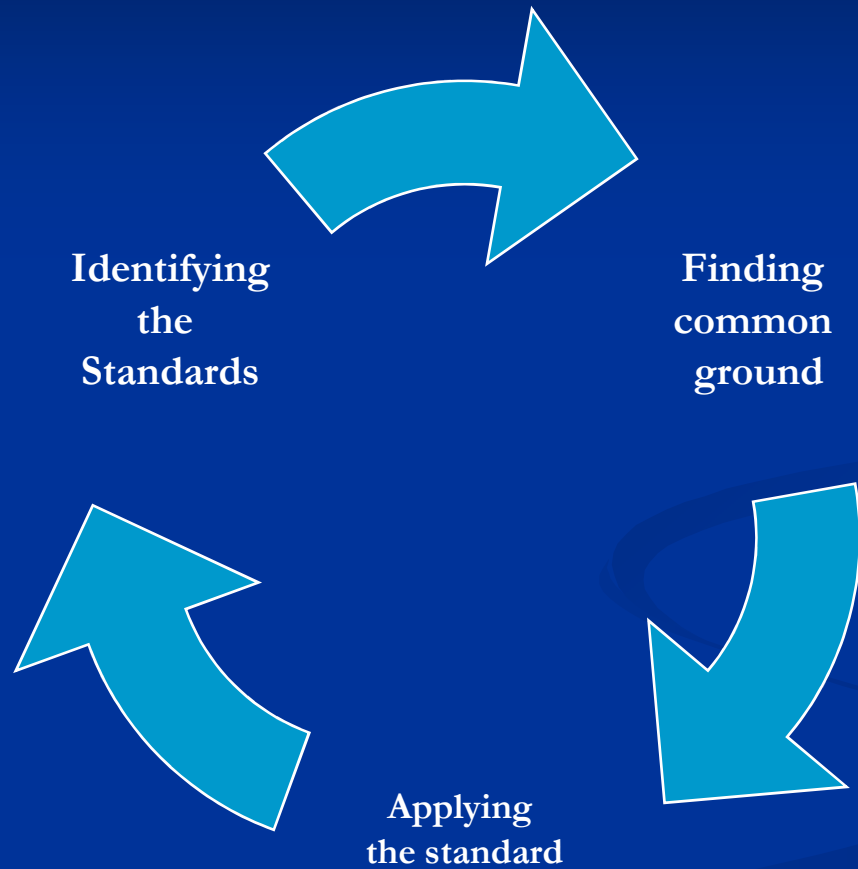

Our Objectives

- To make an inventory of national and international corporate social responsibility standards to define a continuum of CSR standards for the Philippine mining industry
- To conduct a series of multiple stakeholder engagement process to generate awareness and acceptance to find the common ground
- To develop a checklist of steps that could guide companies in undertaking activities in every stage of the mining cycle that meet at the very least the minimum towards the ideal standards
- To provide companies with opportunity to capacitate themselves in carrying out the standards of their choice.

Our Principles

- There is a continuum which companies can choose from
- There is a minimum standard
- Application of standards is progressive and incremental
- There will be consultation of different stakeholders

Our Process

Some Parts of the Working Draft
